MEMORANDUM FOR THE DIRECTOR OF INTELLIGENCE, GSUSA

SUBJECT: Response to CD 6734.1

1. Reference is made to Collection Directive 6734.1 which was issued by CIA on 22 August 1949 requesting information on the metal industry in Hungary.

2. In response to referenced directive, CIA has recently received GHI, USFA Report 516-49, dated 24 October 1949, which the analysts of this Agency consider an exceptional report. The analysis of the economic potential of Hungary in achieving the new five-year-plan is clearly and simply written and extremely well organized.

3. It is requested that our appreciation for this rapid and excellent response be conveyed to the Director of Intelligence, USFA.
